

## Axuall's Data Network Helps Optimize Your Workforce, Informing Your Decisions and Streamlining Clinician Deployment

Developed with and backed by some of the world's leading healthcare organizations, Axuall is a workforce intelligence platform built on a national real-time Clinician Data Network. We connect healthcare organizations to vast data, providing insights and actionable information on your physician, advanced practice provider, specialist, and nursing population while streamlining your clinician onboarding and deployment via digital credentials.

### Plan and Design a More Efficient Workforce

Axuall empowers decision-makers with a comprehensive picture of a clinician's education, training, work experience, affiliations, licensure, demographics, geographics, adverse-event history, and other essential attributes for planning and shaping their workforce.

### Engage Clinicians and Onboard Them Faster

Axuall reduces the barriers, time, and burden for clinicians to apply for roles and privileges while providing administrative teams with real-time data to eliminate information delays in credentialing, privileging, enrollment, and onboarding.

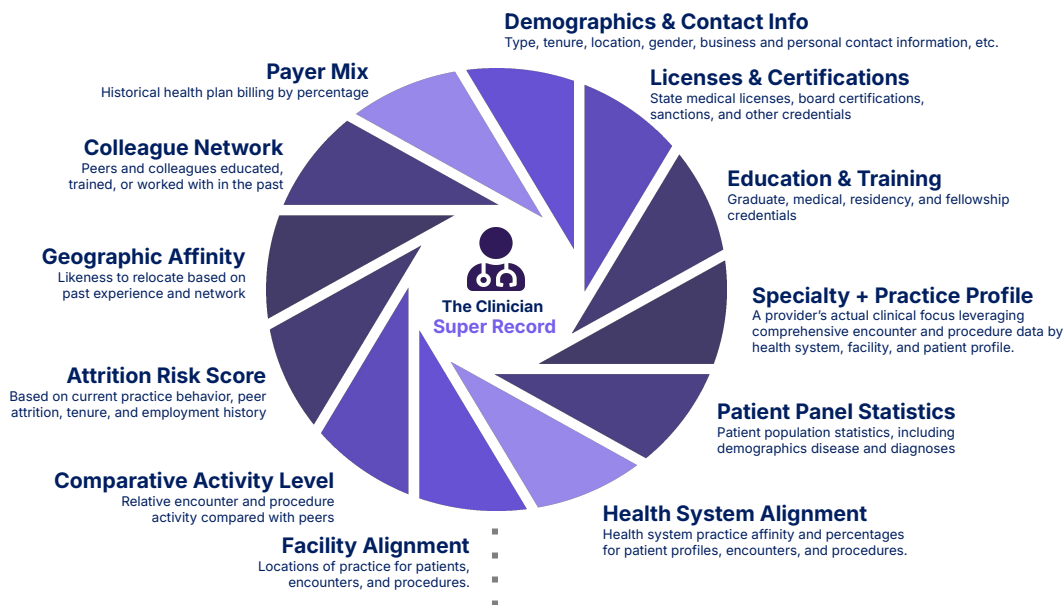

### Pinpoint Top Talent to Recruit

With a dataset of over 2.3 million clinicians, Axuall can help you search and identify candidates outside your network based on credentials, capabilities, and profiles matching your high-demand roles and service lines.

### One Data Source, Many Uses

Axuall enables you to eliminate duplicative data acquisition costs, serving multiple service lines, departments, functions, and decision-makers across your enterprise.

### The Axuall Workforce Intelligence Network

Big Data + AI that brings together thousands of data sources and billions of encounters and procedures across millions of clinicians.
