

Accelerate Recruiting with Verified Data & AI Insight with Axuall Explore

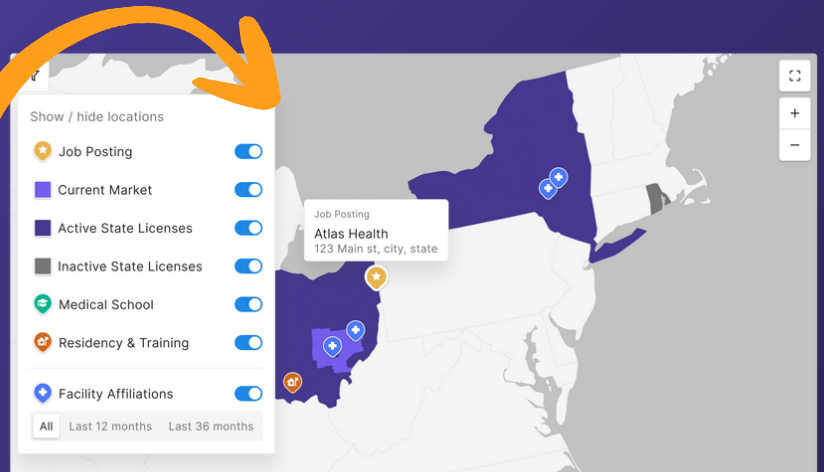

Predictive Intelligence That Gives You the Edge

Stop guessing who's open to a new opportunity.

Axuall's predictive AI surfaces who's most likely to respond **before your competitors do.**

Powered by Predictive Signals:

- **Open-to-Work Score:** AI-predicted likelihood of availability based on tenure, organizational turnover, and peer attrition
- **Geographic Affinity:** Insights into a provider's likelihood to relocate, based on past practice locations and personal ties
- **Peer & Network Connections:** Reveal shared education or work history that boosts engagement & referrals

Recruit Smarter. Move Faster. Win More Placements.

Physician recruitment has never been more competitive. The pressure is on to fill openings faster, reduce attrition, and recover lost revenue from delayed starts and unfilled shifts.

Axuall Explore gives staffing and recruiting teams an AI-powered advantage with a next-generation search and insight engine built on billions of verified clinician data points from thousands of primary sources.

With Explore, your team can find, rank, and engage the right providers instantly, backed by continuously updated, real-world data you can trust.

Trusted Data That Powers Confident Decisions

Axuall's continuously updated primary source verification (PSV) network ensures every profile is accurate and current, never scraped or crowd-sourced. Easily refresh all known candidate data through seamless API integration.

Recruiters can confidently access:

- Verified case logs and procedure data
- Verified contact information
- Patient panel demographics and diagnoses
- Facility affiliations and practice locations
- Health system alignment and payor mix

AI-Powered Clinician Discovery

Search across 2 million+ verified clinicians and 27 billion encounters and procedures to uncover the best matches faster than ever. Explore connects roles to clinicians based on verified credentials, experience, and actual practice behavior, not outdated resumes or directories.

Key Features:

- Advanced Filtering: Search thousands of ways — by specialty, geography, payer mix, activity level, or peer network.
- Smart Lists: Instantly generate ranked candidate lists tailored to your openings.
- Dynamic Profiles: Access verified data on education, training, licenses, affiliations, and sanctions — all in one view.

 Calculated by Axuall

Open to Work Score
This score is the likelihood of this Clinician being open to leaving their job. [Learn More](#)

Overall Score	High
Raw Score	90 / 100
Reason	Facility Attrition
Facility of Note	Irvine Surgical Medical Group...
Score Accuracy	Is this score accurate? 

How Explore Fits Into Your Workflow

Traditional Recruiting

- × Outdated, static directories
- × Manual candidate searches
- × Limited visibility into readiness
- × Generic outreach
- × Time lost verifying credentials
- × Recruiting from the same talent pool

With Axuall Explore

- ✓ Real-time, verified data network
- ✓ AI-powered matching & ranking
- ✓ Predictive Open-to-work & relocation insights
- ✓ Personalized AI-generated messaging
- ✓ Pre-verified case logs & PSV data
- ✓ Access to the entirety of the clinician market

Finding Candidates
